

Sprint 4 Plan - Scrum Tools

Revision 1 - 3/2/2024

Sprint Completion - 3/9/2024

Goal

In this sprint, we want to implement the feature of being able to add and remove sprints to the release plan.

Spikes/Infrastructure

We might have to do some cleanup around the merging at the end of the last sprint, since different branches might not be immediately compatible. We also have to implement the repositories for each data model according to the sponsor's request.

Task Listing

Story 1

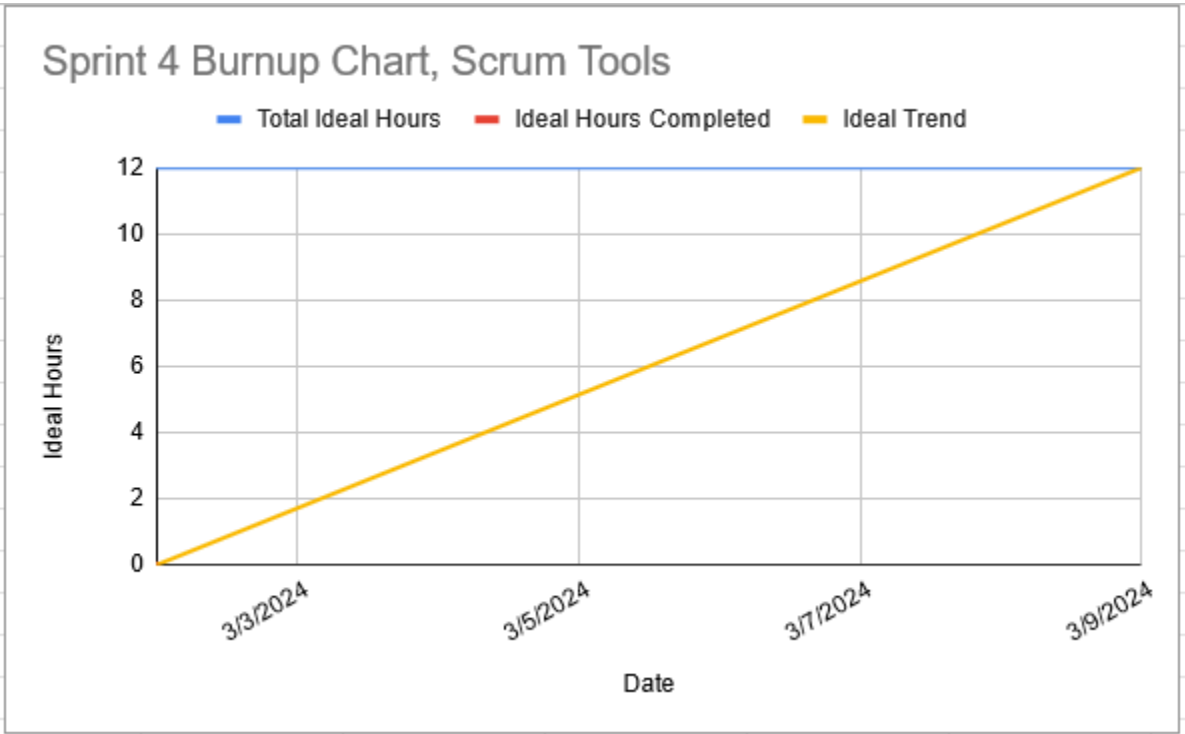

Priority	Story	Acceptance Criteria	SP
1 - Must	As a product owner, I want to add a new sprint to an editable release plan so that I can plan the sprints while making the release plan.	Can add a new sprint to the release plan. Looks better Can remove sprints Can edit sprints	3

Tasks	Ideal Hours
1. Add features to delete sprints.	2
2. Add features to add sprints.	2
3. Reorder sprints	5
4. Backend function to reorder sprints	1
5. Backend function to delete sprints	2

Initial Task Assignment

Team member	Initial Task
Edison	1.1
Tanya	Fix sanity check, then 1.3
Arthur	1.3
Andrew	Fix merging errors, then 1.4
Michael	1.2, 1.3
